

The CLARITY project will support European Member States in their pursuit for greater trust, transparency and efficiency within their open eGovernment initiatives and highlight best practice within this field.

More specifically, CLARITY will:

- Mobilise and engage with the multidisciplinary network of stakeholders across the European open eGovernment ecosystem
- Conduct an interactive needs assessment and gap analysis in order to understand gaps in the market to support the growth in innovation in open eGovernment applications
- Work with the open eGovernment network to develop a blueprint for the future of open eGovernment in Europe

We invite you to join the CLARITY network to:

- Receive updates on, and attend innovation activities such as focus groups, workshops, the week-long
- CLARITY Sprint Event and the CLARITY Exhibition and final conference
- Contribute to the future vision for open eGovernment applications in Europe
- Learn the findings from the needs assessment and gap analysis which will deliver up-to-date data on current gaps in the provision, design and development of open eGovernment applications
- Use and contribute to the establishment of the interactive Open eGovernment Marketplace – a space for the advertising of various open eGovernment applications from across Europe
